

Application

Wall mounted Terminal Enclosure with profile frame for placement of LSA modules

Features & Benefits

- Lower installation costs
- Closed sheet steel Terminal Enclosure
- Door with swivel lever handle and 3-point locking system
- Double-bit insert Lock and keys
- Cable entry from above and below via brush strip with self-supporting back mount frame
- Front mounting drafted sheet steel door with secure hinge pins
- Door opening angle 180°
- Flexible horizontal and vertical jumper wire guides
- Cable catch and shield contact in the back-mount frame
- Design specifically for wiring and routing level
- Equipotential and grounding of the door with grounding strap
- Wall mounting bracket kit included for fastening
- Document Holder

Type	WMTE-170(100)
Protection Class	IP40
Material	Powder Coated Steel Plate
Dimension (WxHxD) in mm	400 x 600 x 220
Capacity	LSA DM & CM: 170 Pair (1 x 17 Modules)
Operational Temperature	-40°C to +60°C
Color	RAL 7035 (Light Grey)

Part Number

D067-IP40WMTE170YGY	IP40 Wall Mount Terminal Enclosure with profile frame, Capacity LSA DM&CM: 170 pairs, Dimensions (WxHxD): 400x600x220 mm; RAL 7035 (Light Grey); Closed sheet steel; For holding LSA modules for profile rods; Door with swivel handle and 3-point locking System with Double-bit insert Lock and Keys
